

Prepare for an Enjoyable Cruise by Getting Started Right

Embarking Passengers

Arrive at the terminal 15-30 minutes before your check-in time.

Keep identification and cruise documents handy. Put them in your carry-on bag, do not pack in luggage. You will need to show these documents several times before boarding. A passport is recommended for travel, however, a certified copy of a birth certificate and government issued ID is all that's required on a "closed loop" itinerary to Mexico and back.

Be ready for security screening. Carry-on luggage is restricted to 16" high by 24" wide (much like airline carry-on luggage). Anything larger should be checked with the porters as you enter the terminal.

No plastic bottles containing drinks will be allowed through screening. No firearms are allowed on the premises of the Mobile Alabama Cruise Terminal.

Tag your luggage. Attach the Carnival provided luggage tags with your name and stateroom to all your checked luggage.

Carry valuables with you. Carry your personal items, valuables, medicine and your ID/Passport and cruise documents with you aboard the ship.
